

English 2273 - Winter 2005  
Hypermedia Project

## Biography

Due: Monday, February 28

In addition to familiarizing yourself with a poem, you must also at least acquaint yourself with the author of poem. You are not expected to write a long, detailed account of the poet's life, and from Acadia it would be impossible to compose a biography based on mostly original research. Therefore, it follows that the biography you compose will require you to carefully record and attribute every source you consult.

Although this is a small assignment in itself, like the other components of the hypermedia project it is connected to the whole in important ways. In order to do a decent job of your biography you will have to learn to use the MLA's on-line bibliography and to search the Vaughan Memorial Library for material on your poet. And then you'll have to read that material.
